Re: Certification/Accreditation Extension

Effective Immediately

This letter is to confirm that Stanislaus County EMS Agency is granting a **14-day extension** as it pertains to certification/accreditation applicants. The extension **ONLY** applies to clinical licensed or certified personnel who expire on or by July 31, 2022.

Be advised, this temporary extension will **END on August 14, 2022!** Stanislaus County EMS Agency will also recognize and waive any 'Late-Fee', till the end of this extension! Any certification/accreditation or re-certification/re-accreditation after this extension, will be considered late – and associated fees will apply!

The reason for this temporary extension, is to allow appropriate time to obtain certification/accreditation, through our web-based application process, which won't be available until August 1, 2022. This will allow all applicants to utilize the online portal to obtain certification/accreditation, and process of appropriate applicable fees.

This extension is temporary, and **ONLY** applies to those whom require certification/accreditation and re-certification/re-accreditation by July 31, 2022. All those who expire after July 31, 2022 will have no extension, and noted date of expiration will apply, along with any/all associated fees; including late fees. Any questions or concerns, please contact the Stanislaus County EMS Agency

Sincerely,

Chad R. Braner
Director
Stanislaus County EMS Agency
