Non School Facilities shall adhere to the following:

- When an AED is placed in a building, the building owner shall do all of the following:
 1. At least once a year, notify the tenants as to the location of the AED units and provide information to tenants about who they can contact if they want to voluntarily take AED or CPR training.
 2. At least once a year, offer a demonstration to at least one person associated with the building so that the person can be walked through how to use an AED properly in an emergency. The building owner may arrange for the demonstration or partner with a nonprofit organization to do so.
 3. Next to the AED, post instruction, in no less than 14-point type, on how to use the AED.

School Facility shall adhere to the following:

- When an AED is placed in a public or private K-12 school, the principal shall ensure that the school administrators and staff annually receive information that describes sudden cardiac arrest, the school's emergency response plan, and the proper use of an AED. The principal shall also ensure that instructions, in no less than 14-point type, on how to use the AED are posted next to every AED. The principal shall, at least annually, notify school employees as to the location of all AED units on the campus.
- This section does not prohibit a school employee or other person from rendering aid with an AED.

* If multiple AEDs are being installed, this information may be submitted on a spreadsheet. Signature of this form is still required.
